Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached FORM PTO-1449. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

Applicant submits herewith copies of foreign patent references and each of their corresponding English language abstracts in accordance with 37 CFR 1.98(a)(2) and 1.98(a)(3)(ii). With the exception of Reference AP, Applicant previously listed the foreign references in PTO-1449 forms, dated June 17, 2004 and July 12, 2004. Upon review of the '363 patent file, it is unclear whether the Examiner considered and initialed the references on these PTO-1449 forms. Therefore, Applicant is resubmitting these

foreign references, along with their corresponding English language abstracts, so as to ensure the Examiner's consideration of them.

With respect to the "concise explanation of the relevance" of the non-English language references, Applicant provides as follows:

- **References AB and AC** relate generally to video telephone sets, as generally disclosed in the English language abstracts.
- **References AD through AL**, these references were cited in a private German search that Applicant had conducted in 2004 with respect to the subject matter of the patents that formed the parent and grandparent of the subject application, namely, U.S. Pat. Nos. 6,278,884 and 6,681,120.
- **References AM through AO** were cited in the parent application, now U.S. Pat. No. 6,278,884, as disclosing multi-functional portable information communication devices such as a multi-functional cellular phone. The claims in the parent application were allowed over these cited references. **See Reference AQ.**
- **Reference AP** relates generally to a mobile telephone having an alarm system.

Based on the Applicant's knowledge, none of the cited references are believed to disclose a device that is capable of wirelessly communicating with the Internet, of downloading data from the Internet and of uploading data to the Internet.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR

1.97(h), the filing of this Information Disclosure Statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR 1.98(a)(2)(ii), Applicant has not submitted copies of U.S. patents and U.S. patent applications.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR 1.97 and 1.98 and the Examiner is respectfully requested to consider the listed references.

This Information Disclosure Statement is being filed before the mailing of a first Office action after the filing of a request for continued examination under § 1.114. Therefore no fee is believed to be due. If Applicant is mistaken, the Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 50-3683.

Respectfully submitted,
